MEMO TO COAL FILE

RE: Stipulation 9-22-2
Plateau Mine Company
ACT/007/006
Carbon County, Utah

On April 20, 1982, Mel Coonrod of PMC called in reference to the mitigation plans pursuant to Stipulation 9-22-2.

Mel pointed out that due to circumstances beyond his control it would be impossible to meet the April 30 deadline and requested a two-week extension.

After discussing the problem, I gave Mel verbal approval of the requested two-week extension (making the "due date" May 14, 1982). A copy of this memo will be considered written confirmation of the verbal approval.

LYNN KUNZLER
