**DIVISION OF  
OIL, GAS & MINING**

Dear Lynn,

As the snow leaves on some of our south aspects, it is becoming apparent that Plateau Mining Company will need to supplement our fall seeding. My best estimate is that approximately 25% of the area adjacent to the Lyon Deck road needs some additional work.

It is my intent to use the approved seed mix utilized last fall, omitting those species which require stratification. We will follow the same procedure and product previously utilized. The only exception to this will be a trial use of jute mesh on some small areas which appear to be sluffing.

If your schedule permits, this may be an opportune time to visit and witness the applied operation.

Sincerely,

PLATEAU MINING COMPANY

M. A. Coonrod
