Memo to Coal File

RE: Bishopsgate Coal Corporation
Scofield Area Coal Exploration
Drill Sites 81-8-2 and 81-5-1P
CEP/007/006
Carbon County, Utah

This memo is to serve as documentation of a phone conversation between myself and Mr. Bill Green of Bishopsgate Coal Corporation on the morning of Tuesday, November 2, 1982. Mr. Green called to inform me that Bishopsgate had acquired funding for reclamation of the drill sites and that Mr. Jack Otani will be doing the actual work on the sites. Mr. Green indicated that drill hole 81-8-2 would probably be completed by the end of this week and that he would call me upon completion of the reclamation. He further indicated that the successful completion of the reclamation of drill hole 81-5-1P prior to the end of the thirty (30) day abatement period would depend on being able to get pumper trucks to pump the drill fluid out of the mud pits.
