Re: Modification of NOV N82-4-13-1
Bishopsgate Coal Company
CEP/007/006, Carbon County, Utah

Dear Dave:

This letter will confirm our phone conversation of June 24, 1983. In communication with Jack Otani and several personal trips, the following conclusions have developed. In order for Jack Otani to travel to Drill Hole 81-5-1P he would have to take the Dry Creek road to the north of the reservoir. Examination has shown this road to be presently impassable with water in the stream bed near the highway and possible washout further up the road. When these roads become passable the cat work will be done. Seeding will be held off until the fall.

I appreciate your time and patience in this matter.

Best regards,

SANDERS EXPLORATION, LIMITED
for Bishopsgate Coal Corporation
