Re: Modification of NOV N82-4-13-1  
Bishopsgate Coal Corporation  
CEP/007/006  
Carbon County, Utah

Dear Dave:

In a recent trip, on May 18, 1983, to Scofield, Utah I find it again necessary to ask for another modification of NOV N82-4-13-1 until the end of June, 1983. In an attempt to get to the hole I found the road blocked with 5-6 feet of drifted snow, approximately one mile north of Woods Canyon. I could only conclude that passage by this drift would only allow me to discover similar situations. Snows on north side hills were still deep and road conditions were muddy.

If weather continues like present then things should be drying out substantially and we can get the hole reclaimed as soon as possible with little environmental damage.

I appreciate your attention to this matter.

Sincerely yours,

SANDERS EXPLORATION, LIMITED
