Plateau Mining Company  
P.O. Drawer PMC  
Price, Utah 84501

L

Dear Ben:

After visiting Plateau's Corner Canyon Breakout site last week, my staff has estimated the volume of merchantable timber to be 200 board feet. This volume is insufficient to justify fee collection. Permission is granted to remove the vegetation within the required cleared area. However, proper disposal of the timber will still be required. Any timber that can be used in your mining operations, should be. All other cleared vegetative materials should be burned or otherwise disposed of by some other prior approved method.

Please be advised that any burning to be conducted after June 1st will require a State Burning Permit, which is available from our office here in Price. Proper disposal of all vegetative material removed for clearing must be accomplished by September 30, 1983.

If you have any further questions contact us.

Sincerely,

*Walter E. Hatch*

IRA W. HATCH
