Dear Mr. Smith:

On April 18, 1983, we received from Plateau Mining Company a copy of Supplement No. 1 to the Corner Canyon Ventilation Facility, dated March 30, 1983. The ventilation facility is needed to safely conduct underground operations in the western part of its property. We have reviewed this document, as requested, by the company.

The total submittal does not contain anything that would require further action by this mining office and there are no conflicts with future recovery of coal resources. Procedures for final abandonment of mine openings are covered in the approved mining and reclamation plan.

Sincerely yours,

Jackson W. Moffitt
