Inspection Memo
to Coal File:

RE: Plateau Mining Company
Star Point #1 and #2 Mines
ACT/007/006 #7
Carbon County, Utah

A partial inspection of the above-mentioned minesite was conducted on February 18, 1983 by Barton Kale and Joe Helfrich of the Division, accompanied by Ben Grimes of Plateau Mining Company.

The purpose of the inspection was to look at compliance work completed to abate NAOC 83-6-1-1 in the Star Point haul road area. Plateau has elected to transfer drainage of that area into the #5 sediment pond. The work was deemed adequate to terminate the NAOC although when the ground thaws some dress work will need to be done. As the area does thaw it should be watched for stability.
