RE: Notification of Approval for a Permit Revision, Plateau Mining Company, Unit Train/Loadout Facility, Star Point Mines, ACT/007/006, #3 and #4, Carbon and Emery Counties, Utah

The Utah State Division of Oil, Gas and Mining (Division) and the Federal Office of Surface Mining (OSM) have completed the review and processing of the permit application for a revision to the previously approved Mining and Reclamation Plan (MRP) submitted by Plateau Mining Company for their Star Point Mines. The regulatory authorities have determined that the application is technically complete and demonstrates compliance with all of the "Regulations Pertaining to the Surface Effects of Underground Coal Mining Activities, Final Rules of the Utah Board and Division of Oil, Gas and Mining," promulgated under the Utah Coal Mining Reclamation Act (UCA 1953, Section 40-10-1 et seq.).

Notice is hereby given to all appropriate agencies and individuals having jurisdiction over or an interest in the area of the operations, pursuant to UMC 786.23(d)(3) that a permit has been issued to said permittee.

This permit authorizes the permittee, Plateau Mining Company, to conduct surface operations connected with the permitted underground coal mining operation on the lands described within the application for a permit revision.
