RE: Increase of Reclamation Surety, Plateau Mining Company, Star Point Mines (including modifications), ACT/007/006, #5, Carbon County, Utah

The bond was increased for the entire Plateau operation (including the unit-train loadout) effective August 29, 1984. This amount (\$3,245,317.00) will be adjusted annually at the anniversary date, January. Plateau received their permit in January 1983, therefore, the mid-term review should be now.
