RE: Preparation of Findings Document to Support Final Permit Decision

This memo is directed to you to request your attendance at a brief meeting with the other review team members reviewing Plateau Mining Company's Unit Train Loadout MRP permit revision. The purpose of the meeting is to discuss the extent of detail and the proper format necessary to develop and complete the "findings document" for this proposal.

Apparently my last memorandum dated June 13, 1984 created a significant amount of confusion and uncertainty in the minds of those who received it. Also, I failed to assign a formal date for receipt of comments from the review team.

Therefore, I am requesting that those individuals involved with the review of said proposal try to arrange their schedules to attend the meeting, tentatively scheduled for June 29, 1984 at 9:00 a.m., in the small conference room.

Thank you for your attention and help in this matter.
