RE: Apparent Completeness  
Determination  
PMC Unit Train Loadout  
Proposal  
Star Point Mines  
ACT/007/006, File #3 & 4  
Carbon County, Utah

Dear Mr. Mueller:

The Division has completed its review of Plateau Mining Company's (PMC) Unit Train Loadout MRP revision submitted December 1, 1983. The Division has determined the plan to be apparently complete and hereby advises the company to publish a public notice in a local newspaper pursuant to UMC 786.11(a). The Division will provide written notice of a complete plan in accordance with UMC 786.11(b)(c).

PMC is reminded that UMC 786.11(d)(1)(2) requires the operator to also file a copy of the application for revision with the local county recorder's office (courthouse).

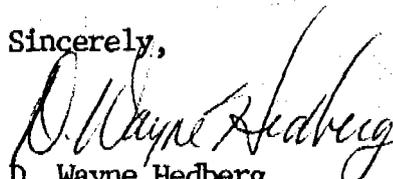

The Division is proceeding with the in-depth technical review of the application and will prepare a final decision on the proposal pursuant to the time frames established under UMC 788.12(c).

It should be understood, that before a final approval can be issued by the Division for this MRP revision, the operator must provide a complete and adequate response to the Division's December 9, 1983 letter. That letter outlines those MRP Special Stipulations which still remain deficient [see UMC 786.17(c), UMC 786.19(g)].

Mr. Walter Mueller, Jr.  
ACT/007/006  
March 29, 1984

The Division wishes to express its appreciation to Plateau Mining Company for their continued cooperation and patience in the often times, drawn out permitting process. Should you have any questions, please call me.

Sincerely,

  
D. Wayne Hedberg  
Reclamation Hydrologist/  
Permit Supervisor
