RE: Plateau Mining Company, Star Point Mines, ACT/007/006,  
Folder #7, Carbon County, Utah

A partial inspection was conducted at the above mentioned mine site on August 28, 1985 by Barton Kale of the Division. The inspector was accompanied by Holland Shepherd, a new inspector with the Division, and Bob Lauman of Plateau Mining Company.

While the inspector was onsite an inspection of the Groundwater discharge was conducted to ensure the quality of the water being discharged. The last inspection resulted in a violation at this site. No problems were noted and the water quality looked quite good.

The undisturbed ditch behind the Lion Deck shop was inspected at this time. The ditch was redefined and the berm has been reconstructed which was the minimum to terminate the violation from the previous inspection.

No further problems were noted at this time.
