Dear Lowell:

We have reviewed PAP Amendment, New Sedimentation Pond #9, Cyprus - Plateau Mining Corporation, Star Point Mines, ACT/007/006-87C, Folder #2, Carbon County, Utah.

Our only comment is in regard to Culverts C80B and C80A. State and Forest Service requirements involve sizing culverts for a 10 year 24 hour storm without head at the culvert entrance ($Hw/D = 1.0$). The calculations for these culverts in the amendments shows that the culverts were sized based on $Hw/D = 1.3$.

Sincerely,

W. H. Baley
