

Act/007/006  
#2

August 12, 1987

TO: Wayne Hedberg & John Whitehead  
FROM: Dave Wham *DWW*  
RE: MRP Amendment, Coal Refuse Area Hydrology, Starpoint Mines,  
Plateau Mining Company, ACT/007/006-85H, Carbon County

The above referenced MRP amendment was conditionally approved on November 18, 1986 (see attached letter). The plan was technically adequate, but not formatted in a manner that allowed direct insertion into the Starpoint Mines Permit Renewal Application.

Since November of 1986, I have contacted Ben Grimes on three separate occasions concerning this matter. Each time I have been assured that the requested information would be included in upcoming responses to "A" team's various review documents.

To this date, I have been unable to locate the updated information in any of the company's subsequent submittals. Therefore, I recommend that this information be requested formally as part of the ongoing permit renewal process.

The specific information required to complete this action is outlined in the attached DOGM letter of November 18, 1987. For further clarification, I have also attached the following:

- 1) A copy of the company's November 3, and September 15, 1986 submittals.
- 2) A copy of the Division's October 6, 1986 deficiency response with my technical memo attached.

If I can be of further assistance in putting this tiresome amendment to rest, please advise.
