DIVISION OF
OIL, GAS & MINING

Re: NOV 88-26-15-3 Part (a)

Dear Mr. Braxton:

Enclosed please find a response to UMC 817.42 which should be added to our MRP to cover areas that do not drain to sedimentation ponds. This information was inadvertently left out of the permit renewal document. The response includes revisions to Maps 67, 68, and 71, and a new Table 95.

We must stress that all of these areas have been previously permitted and approved by the Division in various submittals in the past. This submittal is to include the areas under the Small Area Exemption provisions of UMC 817.42 and to make our MRP document complete. No approvals are required by this action, except as to form and content.

When the Division is satisfied that this information covers the requirements, additional copies will be provided for all MRP sets. This submittal should satisfy the requirements of NOV 88-26-15-3 Part (a).

Three sets of new text, maps, and tables are enclosed. If you have questions, please call.

Respectfully,

A handwritten signature in cursive script, appearing to read 'Ben Grimes'.

Ben Grimes
Sr. Environmental Engineer
