

December 29, 1988

TO: John Whitehead, Permit Supervisor

FROM: William J. Malencik, Reclamation Specialist *WJM*RE: MRP Amendment, Cyprus/Plateau Mining Company, ACT/007/006, NOV 88-26-15-3 part (a)

Synopsis of Proposal The mining company has submitted the necessary documents to abate the aforementioned NOV. Also, the company added three other small area exemptions to their proposal. The submission included a transmittal letter, maps, table, and a MRP narrative on four small area exemptions.

Recommendations The total area in the four small area exemptions together with other supportive information, meets the requirements. In view of this, I recommend the submission be approved.

Other The NOV concerned only the small area exemption identified in the submission as area #2. The abatement date on the NOV was 12/28/88 and it required documentation of the small area exemption. On 12/28/88 I reviewed the mine files at the Plateau Mining Co, and found the submission to be adequate and terminated the NOV.
