October 4, 1988

TO: John Whitehead, Permit Supervisor

FROM: Tom Munson, Reclamation Hydrologist *TM*

RE: Stipulation Review of Plateau's Map 42, Cyprus-Plateau Mining Company, Starpoint Mine, ACT/007/006, Folder #2, Carbon County, Utah

Synopsis

The Division received Map 42 sheets 1, 2 and 3 on September 14, 1988. Submittal of Map 42 was to have addressed the changes associated with the field verification visit of June 7, 1988, as stated in a June 10, 1988 memo from myself to John Whitehead, and transmitted to Ben Grimes on June 10, 1988.

Analysis

The operator has not made the appropriate changes to the culvert design criteria table as was recommended by the Division. The purpose of the site visit was to clean up issues outlined in this table under inlet/outlet conditions.

Recommendation

Approval of this map will be denied until the Culvert Design Criteria table is revised to reflect the Division's field verification visit outcome and the inlet/outlet conditions are revised to reflect the outcome of the June 7, 1988 field culvert verification visit.
