RE: Review of July 25, 1988 Response to Stipulation 817.71-.74, Plateau Mining Company, Starpoint Mines, ACT/007/006, Folder #2, Carbon County, Utah

The operator has submitted Map 39, Sheet 6 that locates sampling locations from 1987 and an estimate of coal to waste rock. Both of these items are in compliance with Stipulation 817.71-.74. However, the estimate of coal to waste rock must be incorporated into the text of the PAP.

The operator states in the cover letter under Item #3 that "A plan for monitoring refuse prior to reclamation was submitted to the Division, dated April 27, 1988. The plan can be found starting on page 5 and ending on page 11." A review of the materials dated April 27, 1988 indicates pages 5-11 were not included in the submittal.

Recommendations

The operator should be instructed to provide a plan for monitoring refuse prior to reclamation and incorporate the estimate of coal to waste rock into the text of the PAP.
