Folder # 2

March 18, 1988

Messrs. Bob Lauwan and Ben Grimes
Plateau Mining Company
P. O. Drawer PMC
Price, Utah 84501

Gentlemen,

Enclosed is an agenda for a field tour of your mine site on April 19, 1988 by representatives of DOGM and the Utah Attorney General's Office. It's my understanding that Malencik has already contacted you and the 19th meeting date is agreeable with Plateau officials. From our end, we will have a small group, not more than five representatives. Transportation shall be provided by DOGM so that we can all ride in our multi-passenger van. It will only be necessary for you and your representatives to attend the session at your mine.

I have asked Bill Malencik of our Price office to make the local arrangements and coordinate the field tour. He is assembling a folder with reference material. The material is being gathered primarily to assist the representative of the Attorney General's Office. The central theme is coal mine environmental compliance. Should you have any information that you would like to include and/or like to see included in the folder, please contact Malencik.

We are all looking forward to the field tour. In closing, must mention that the field tour is not an inspection, but is targeted to collectively look at ways where environmental operations can be improved from a field standpoint.

Sincerely,

Lowell P. Braxton
Administrator
