Re: 1989 Minor Ditch Modifications

Dear Tom:

Following your phone call, I checked on the progress of the downspout to Ditch 6B. The culvert is installed with tension cable and inlet. The berm is about 4 feet high and 3 feet wide on top. The berm slope runs about 30 feet to the east and 6 feet to the inlet side.

The crew is using natural rock to face the berm at the inlet; about 95 percent of the rock ranges from 8 inches to 4 feet on the flat side dimension and greater than 6 inches thick. About 5 percent of the rock is less than 5 inches in diameter. They have used about 3 yds.<sup>3</sup> of rock.

The trash rack will be built about 20 feet up the ditch on the outside curve. The rack will consist of 5 foot long, 3/4 inch and 5/8 inch roof bolts driven into the ditch bottom with horizontal bars wired to the uprights. Bar centers will be 6 inches to 8 inches.

The crew expects to be complete on this project by Tuesday afternoon, July 25. The culvert for Ditch #7 will be initiated thereafter, contingent upon other maintenance priorities.

Sincerely,

A handwritten signature in cursive script that reads 'Bob Lauman'.

Re: Ten-Day Notices 88-02-107-9 and 89-02-250-1

Dear Mr. Braxton:

The following is the final disposition regarding the Division of Oil, Gas and Mining's (DOGM) response to the above referenced Ten-Day Notices (TDN):

DOGM has field-checked the ditches in question and has found them to be in compliance with the applicable regulations. Plateau Mining has submitted revised and updated design calculations representing the field configuration of the structures. On June 19, 1989, DOGM approved the revisions for insertion into the mining and reclamation plan.

Based on the above, the Albuquerque Field Office (AFO) finds that DOGM has taken appropriate action to cause the violation to be corrected. In accordance with your letter of June 29, 1989, AFO will wait for the copies of the approved revisions for insertion into the AFO files.

If you have further comments regarding this matter, please contact Stephen Rathbun at (505) 766-1486.

Sincerely,

  
Robert H. Hagen, Director  
Albuquerque Field Office
