Re: Exploration Permit 86-1, Completion Notice

Dear Mr. Smith:

All exploration has been completed for Exploration Permit 86-1. The holes were plugged from bottom to top with cement and the sites reclaimed. The roads were also reclaimed and all sites were re-seeded. Vegetation on the sites and roads is progressing slowly due to a dry year in 1988 and a very dry spring this year. The reclaimed areas show no signs of erosion.

Let me know when you are ready to inspect the sites and we can arrange a site visit. You can plan on a long hike to see sites 86-18-1, 86-18-2, 86-18-3, and 86-18-4. The other sites are easily accessible. Plan on most of a day to make the inspection.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Ben Grimes'.

Ben Grimes  
Sr. Environmental Engineer
