Attn: Ben Grimes

Dear George:

Enclosed is the 1989 Raptor Survey of your mine property conducted by Ben Grimes of your staff, and myself on June 5, 1989. A Jet Ranger helicopter provided by your company was used for the survey. Several new nests were found during the survey and were numbered using our numbering system to be entered into our computerized Utah Wildlife Information Network. This information can be recalled at anytime and plotted on any scale map. This information is available to your company upon request.

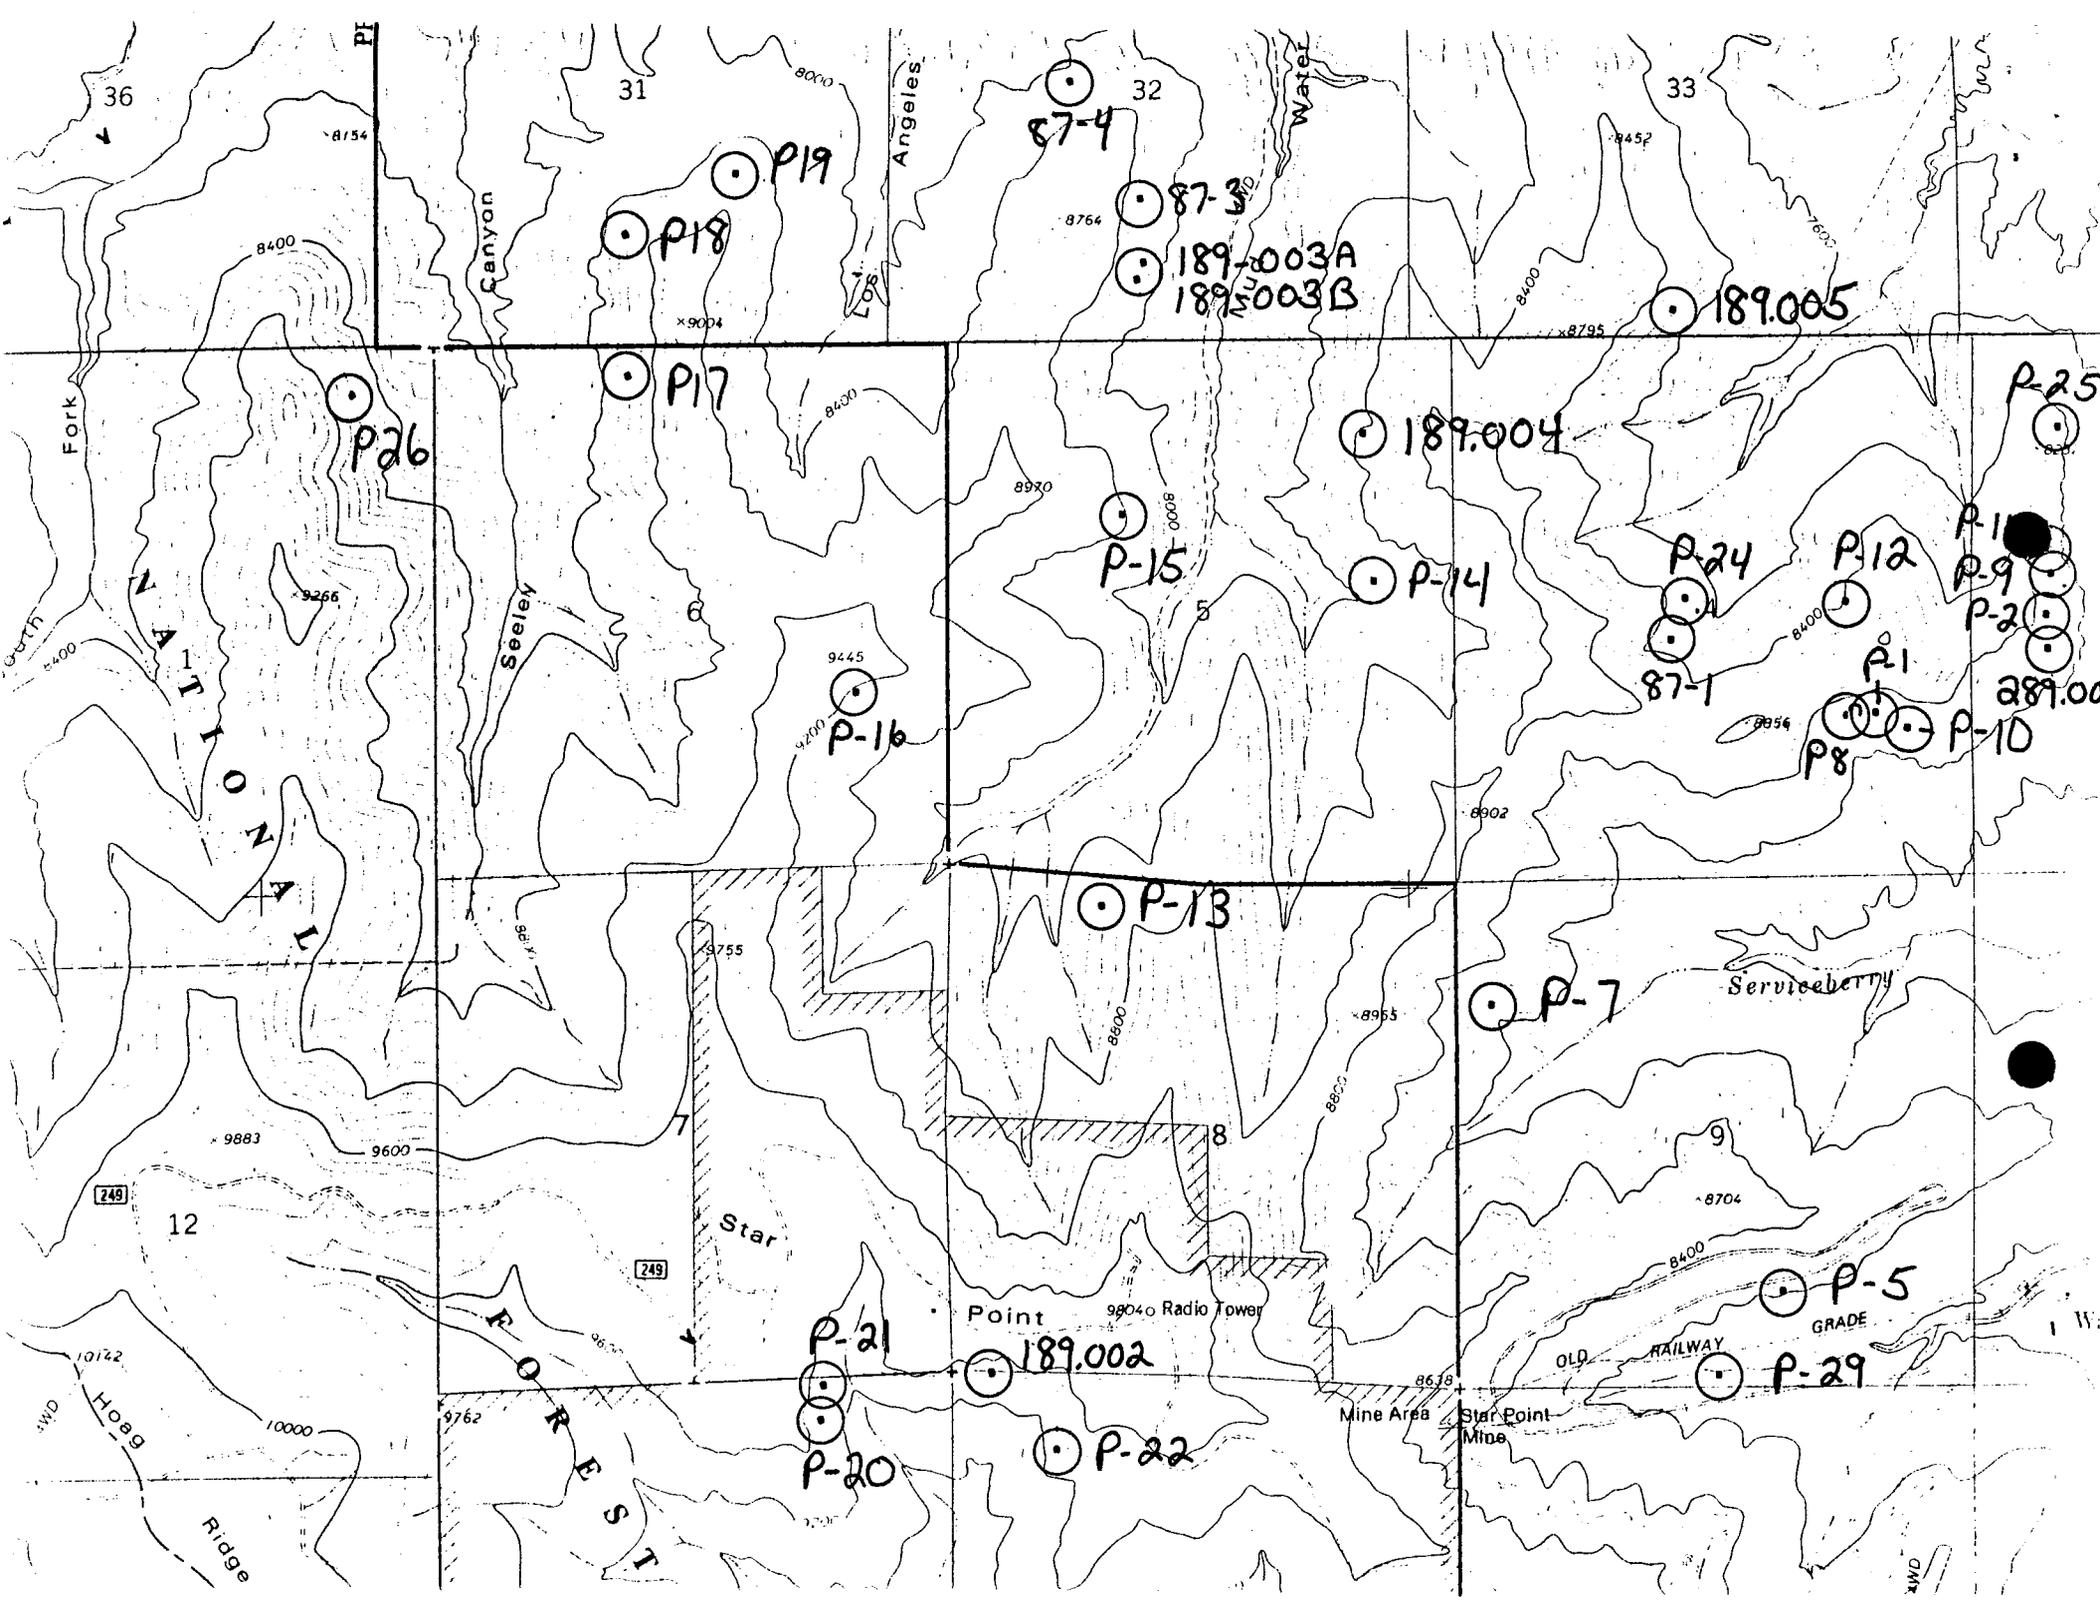

Thank you for once again providing the helicopter for the survey. If I can be of any additional assistance, please let me know.

Sincerely,

Miles Moretti
Nongame Manager
