Re: Amendment - New Shop Building Addition

Dear Mr. Smith:

Cyprus Plateau Mining Corporation is planning to construct a new shop building at its surface facilities. This building will be 50 feet wide and 81 feet long, and will be constructed in an area that has previously been disturbed. No new disturbance to soils, vegetation, or drainage area will be required.

We propose adding the reclamation cost of this structure to our reclamation bond at the time of the next mid-term review or bond update. The estimated reclamation cost is \$10,628, which is 0.31 percent of the currently approved bond. The building will be reclaimed by removing the steel structure, knocking down the concrete and block walls, and removal of the floor slab or burial of the slab with at least two feet of backfill.

The following MRP tables, map, and exhibit have been revised to include the new building:

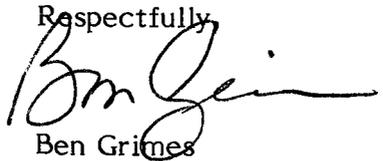

Table 67	Item 75 "Shop Building" added
Table 68	"2 Each" added to Shop under year 2011
Table 69	\$10,628 added to Area 1 and Totals
Exhibit 36	Page 36-2 - "1 Story New Shop" added at the bottom of Area 1
Map 44	Item 75 added

Three drawings are included showing details of the new building.

Mr. Richard Smith

We are desirous of starting construction on this building as soon as possible to avoid winter weather, so we would appreciate a quick response on this matter.

Respectfully

A handwritten signature in black ink, appearing to read "Ben Grimes". The signature is fluid and cursive, with a large initial "B" and "G".

Ben Grimes
Sr. Environmental Engineer
