Re: Star Point Ten-Day Notice 89-02-250-1

Dear Mr. Braxton:

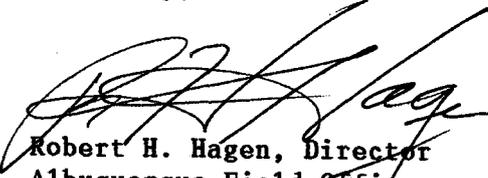

The Office of Surface Mining Reclamation and Enforcement (OSMRE) received the Utah Division of Oil, Gas, and Mining's (DOG M) response to the above-referenced Ten-Day Notice (TDN).

The DOGM letter includes the response concerning re-evaluation of the design calculations required by the Assistant Director for Program Policy in his March 29, 1989, letter to you.

X AFO finds that the response to the TDN, the issuance of a Notice of Violation for the operator's failure to design all diversions and culverts diverting surface runoff at the site of the coal processing waste for the 100-year, 6-hour precipitation event, meets the standards for appropriate action.

If you wish to discuss this matter further, please contact Steve Rathbun or me at (505) 766-1486.

Sincerely,

Robert H. Hagen, Director
Albuquerque Field Office

As discussed, ~~discuss~~ with Rathbun 5-8-89, the ^{location} ~~location~~ of the
now by DOGM notifies this "appropriate" response. We
will respond again.
