Permit No. ACT/007/006

Inspection Date October 20, 1989

Permittee/Operator Name CYPRUS - PLATEAU MINING COMPANY

Business Address P. O. DRAWER PMC

City PRICE State UTAH Zip 84501

Mine STARPOINT Surface Underground Other

County CARBON State UTAH

Company Official(s) STEVE JONES

State Official(s) BILL WARMACK

Time of inspection 6:30 a.m. p.m. to 1:00 a.m. p.m. Partial Complete

Date of last inspection September 26, 1989 Weather conditions Overcast & cool

Acreage 7200 Permitted 221 Disturbed Regraded Seeded 221 Bonded

Enforcement Action None

COMPLIANCE WITH PERMITS AND PERFORMANCE STANDARDS

INSPECTION REPORT COMMENTS

Permit No. ACT/007/006

Inspection Date October 20, 1989

Please number comments to correspond with topics on previous page.

Comments herein correspond to the grading and revegetation
of exploratory sites.

An approval of Amendment for Exploration Pits was granted by the
Division on October 2, 1989, and corresponds to a Prospecting Permit
G4-1003-891 CPMC received from the USFS (Manti-LaSal National Forest).

Test pits were dug along resistivity lines to compare actual ground
features with anomalies identified by the surveys. All pits were
excavated by a rubber tired backhoe which did not significantly disturb
the adjacent area. Upon completion of the investigation at each pit,
holes were backfilled and graded to approximate original contours. For
the most part, excavation sites were left in a rough condition to enhance
vegetative growth and control runoff. A total of 19 pits were excavated
along resistivity lines 89-R-7 through 89-R-12. As of October 20, 1989,
reclamation has been completed on all sites.

In addition to the exploratory test pits, CPMC has conducted drilling
operations. These sites were inspected in June 1989, and found completed
(refer to June 30, 1989, inspection report). Further, the USFS requested
that CPMC remove roof bolts and concrete from several sites (83-14-1,

84-23-1, 84-26-2, 85-14-6) which were previously reclaimed. All sites
have been addressed per USES recommendations.

As of this inspection, CPMC has completed all exploratory operations,
including reclamation of the newly disturbed areas. Precipitation in the
form of rain and snow was evident on October 21 and should enhance
reclamation efforts.
