RE: Refuse Pile Calculations, Approval and Transmittal,  
Cyprus-Plateau Mining Company, Starpoint Mine,  
ACT/007/006-89D, Folder #2, Carbon County, Utah

## Synopsis

On July 25 and July 28, 1989, Cyprus-Plateau submitted additional information relating to trash rack installation and inlet protection for Ditch 6C and Ditch 7G as requested in a memo of June 19, 1989. This completes the submittal of information on the Refuse Pile Ditches and Culverts. This information will be transmitted to the appropriate agencies for inclusion into the PAP as a new exhibit (Exhibit 54).

## Analysis

The operator committed to installing the approved designs for Ditch 6C by July 25, 1989, in a letter dated July 25, 1989. The operator also committed to installing the approved plans for Ditch 7G, 30 days following receipt of this memo. Therefore, Ditch 7G construction must be completed by August 30, 1989.

## Recommendation

All plans for inlet protection and trash racks be approved for Ditch 6C and 7G, and be included as part of Exhibit 54. The letters received from Cyprus-Plateau on July 25 and 28, 1989, be considered part of Exhibit 54 documenting inlet protection and trash rack design.
