Dear Mr. Grimes:

Re: Incidental Boundary Change, Modification of UTU-64263, Cyprus-Plateau Mining Corporation, Star Point Mines, ACT/007/006, Folder #3, Carbon County, Utah

The Forest Service consented to modification of UTU-64263 on April 30, 1991, and the Bureau of Land Management (BLM) made a decision to approve this lease modification on May 8, 1991. The proposed lease modification contains 50 acres due to the fact that the BLM may only modify the lease in designated acreages of which 50 acres is the smallest unit. The anticipated coal to be removed from this modification is 8.36 acres (see Map-6, Mine Plan Wattis Seam), which qualifies this extension of the permit area as an incidental boundary change. This acreage is 4.83% of the total disturbed area. A previous incidental boundary change was obtained in 1987, consisting of 7.23 acres. The total added acreage results in 15.59 acres or 9% of the total disturbed area.

The Division hereby approves the 8.36 acre incidental boundary change for modification of UTU-64263.

Sincerely,

A handwritten signature in cursive script, reading 'Pamela Grubaugh-Littig'.
