Cecil

Dear Mr. Slaughter:

Re: USGS/DOGM/CPMC Groundwater Investigation MOA 90-2677, Cyprus-Plateau Mining Corporation, Star Point Mine, ACT/007/006, Folder #2, Carbon County, Utah

This correspondence informs you of having finalized the review of the report titled "Hydrologic Response to Land Subsidence Caused by Underground Coal Mining, North Fork of the Right of Miller Creek, Carbon County, Utah." C. Slaughter, G. Freetley, and L. Spangler.

The report was reviewed and found to meet the requirements of the study as it was defined. Overall, it appeared to address the complex hydrologic issues, to the best of the author's abilities, based on the data available and other limiting factors.

Thank you for supplying the Division with a draft copy to review and we appreciate your efforts in putting this report together.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lowell P. Braxton".

Lowell P. Braxton
Associate Director, Mining
