Dear Ms. Littig,

Re: Permit Amendment - Increase Production Rate

Cyprus Plateau Mining Corporation is seeking a permit amendment to change the coal production rate to the levels shown on Table 523a enclosed, and addressed in the revised text enclosed. The Production rates are highly influenced by market conditions and may fluctuate.

Map 116.100c has been revised to show the dates of mining based on Table 523a. There are no other changes required in the permit to reflect the amendment. The water monitoring schedule has been reviewed for impact by this amendment and none was found.

Eight copies of the revised text and map are enclosed for direct insertion into the MRP sets.

Respectfully,
