~~#2~~

Dear Ms. Littig,

Re: Ditch 81 Completion

We have completed construction of ditch 81. The ditch has been lined with riprap up to the current level of the top of the refuse pile. As the pile is raised, the ditch will be extended. It should be recognized however that the pile is dynamic and as it's level raises in elevation, particularly during the winter, it may be impossible to line the ditch with riprap until dry conditions allow.

Respectfully,

Ben Grimes
Sr. Environmental Engineer
