Dear Mr. Braxton,

Re: Division Order DO-92A - Item 4, Pond 1

As presented to you in a letter from Hansen, Allen and Luce, Inc, Consultants/Engineers in a letter dated April 27, 1992 in response to DO-92A, Item 4, an evaluation of Pond 1 (Treatment Facility No. 1) stability was to be made by a geotechnical engineer to evaluate the factor of safety of the embankment.

The attached letter report from Applied Geotechnical Engineering Consultants, Inc. (AGEC) addresses the safety factor of the embankment. The findings of AGECE are that the pond has a safety factor of 1.305, which meets the requirement of R645-301-533.100.

This submittal satisfies the balance of information needed to resolve Division Order DO-92A.

Respectfully,

A handwritten signature in cursive script, appearing to read 'Ben Grimes'.

Ben Grimes
Sr. Environmental Engineer
