Dear Ben:

Enclosed are copies of the permit revision which modifies the road classification. This revision has been formatted for replacement into the existing permit application. Pages 37, 37a, and 38 of this submittal should replace the corresponding pages in the permit. Also page 38a should be added to the permit. Included with this revision are copies of Maps 521.121a through 521.121d, and Map 521.121h. These are maps of the surface facilities at the Star Point Mines and have been revised to show the reclassification of the roads. Please replace the corresponding maps now contained in the permit with these revised maps.

Each page submitted with this revision has been given a footer which states "Revised 5/15/92" and the added text on each page has been redlined.

With this letter, four copies of the revision are being submitted to you and twelve copies to the Division. If we can be of any further assistance please contact us.

Very Truly Yours,

Barry Barnum
