RE: Status of Gentry Mountain Air Shaft and Exploration Drilling, Cyprus Plateau Mining Corporation, Star Point Mine, ACT/007/006, Folder #2, Carbon County, Utah

Mr. Tom Rasmussen telephoned me on October 29, 1992 to apprise me of the status of the exploration drilling at the Star Point Mine. He said that BLM will not witness the drilling of the vent hole because it is located inside the permit area. Additionally, one of the helicopter holes (PP-10-1) was finished as a water monitoring hole. One of the other holes hit an entry into the mine and hit lots of water. A plate will be put on it and they will be finished from bottom to top. BLM will be witnessing these holes.
