RE: Map Revised to Show Ultimate Limits of Refuse Pile, Cyprus Plateau Mining Corporation (CPMC), Star Point Mine, ACT/007/006, Folder #2, Carbon County, Utah

SYNOPSIS

In a March 6, 1992 letter, the Division requested that the operator submit a map showing the ultimate limits of the refuse pile. In response to the Division letter, the operator submitted, on June 12, 1992, a revised map which shows the refuse pile and surrounding area as well as the expected ultimate limits of the refuse pile.

ANALYSIS

The revised map is 521.121c, 'Surface Facilities'. As requested by the Division, this map shows both the present topography of the refuse pile and its expected ultimate limits. This information is clearly and adequately displayed on the revised map. Furthermore, this writer is familiar with the refuse pile area and finds that it is accurately represented on the revised map.

RECOMMENDATIONS

It is recommended that the revised Map 521.121c be approved and included in the PAP.
