Re: Incidental Boundary Change
Cyprus-Plateau Mining Corporation
Star Point Mine

Dear Pam:

The above referenced mine permit amendment has been reviewed. Comments relating to the impacts to area water resources, and the Little Park Canyon breakout were outlined in my letter to you dated November 25, 1991. Generally, comments were directed to the protection of down gradient culinary rights and possible stream alteration in Little Park Canyon. In addition, reference was made in the new proposal regarding the installation of in-mine water monitoring wells. Prior to the construction of such wells, written application must be made to this office.

I appreciate the opportunity to review CPMC's proposal. Should you have any questions, please feel free to contact me.

Sincerely,

William A. Warmack
