Mr. Lowell Brackston
#3 Triad Center
355 West North Temple, Ste 350
Salt Lake City UT 84180

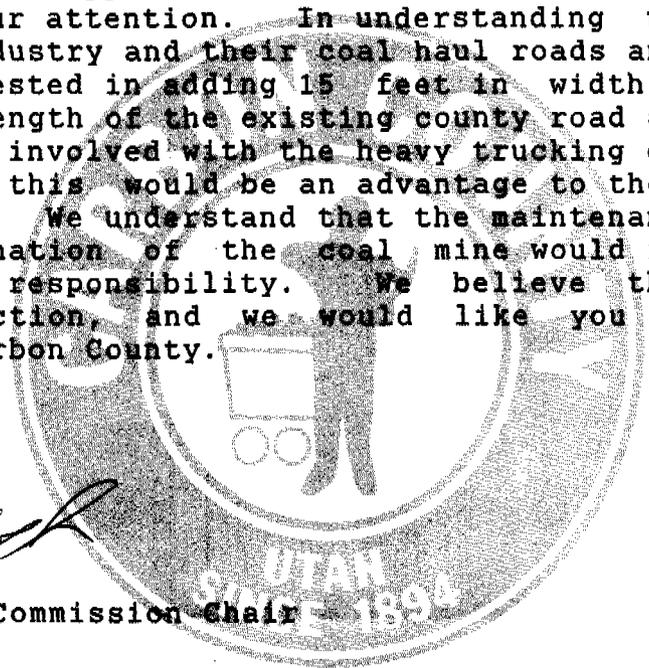

Dear Mr. Brackston

We have been appraised of a project in our area I would like to bring to your attention. In understanding the needs of our local coal industry and their coal haul roads and facilities, we would be interested in adding 15 feet in width to approximately 750 feet in length of the existing county road #290. Due to the safety hazards involved with the heavy trucking on this coal haul road we think this would be an advantage to the industry and to Cyprus Plateau. We understand that the maintenance of this road at the termination of the coal mine would fall under Carbon County's full responsibility. We believe this would be an appropriate action, and we would like you to consider this request for Carbon County.

Sincerely,

A handwritten signature in cursive script, appearing to read "Neil Breinholt".

Neil Breinholt
