Dear Ms. Littig,

RE: PORTAL SEALS - MUDWATER CANYON

*ACT/007/006 #2  
Copy from*

This letter serves as notification that two portals have been sealed according to the approved plan. These portals are located in a small side drainage of Mudwater Canyon in the NE 1/4 of Section 7, Township 15 South, Range 8 East. The only vehicular access to the seals is through the mine, there is no surface access.

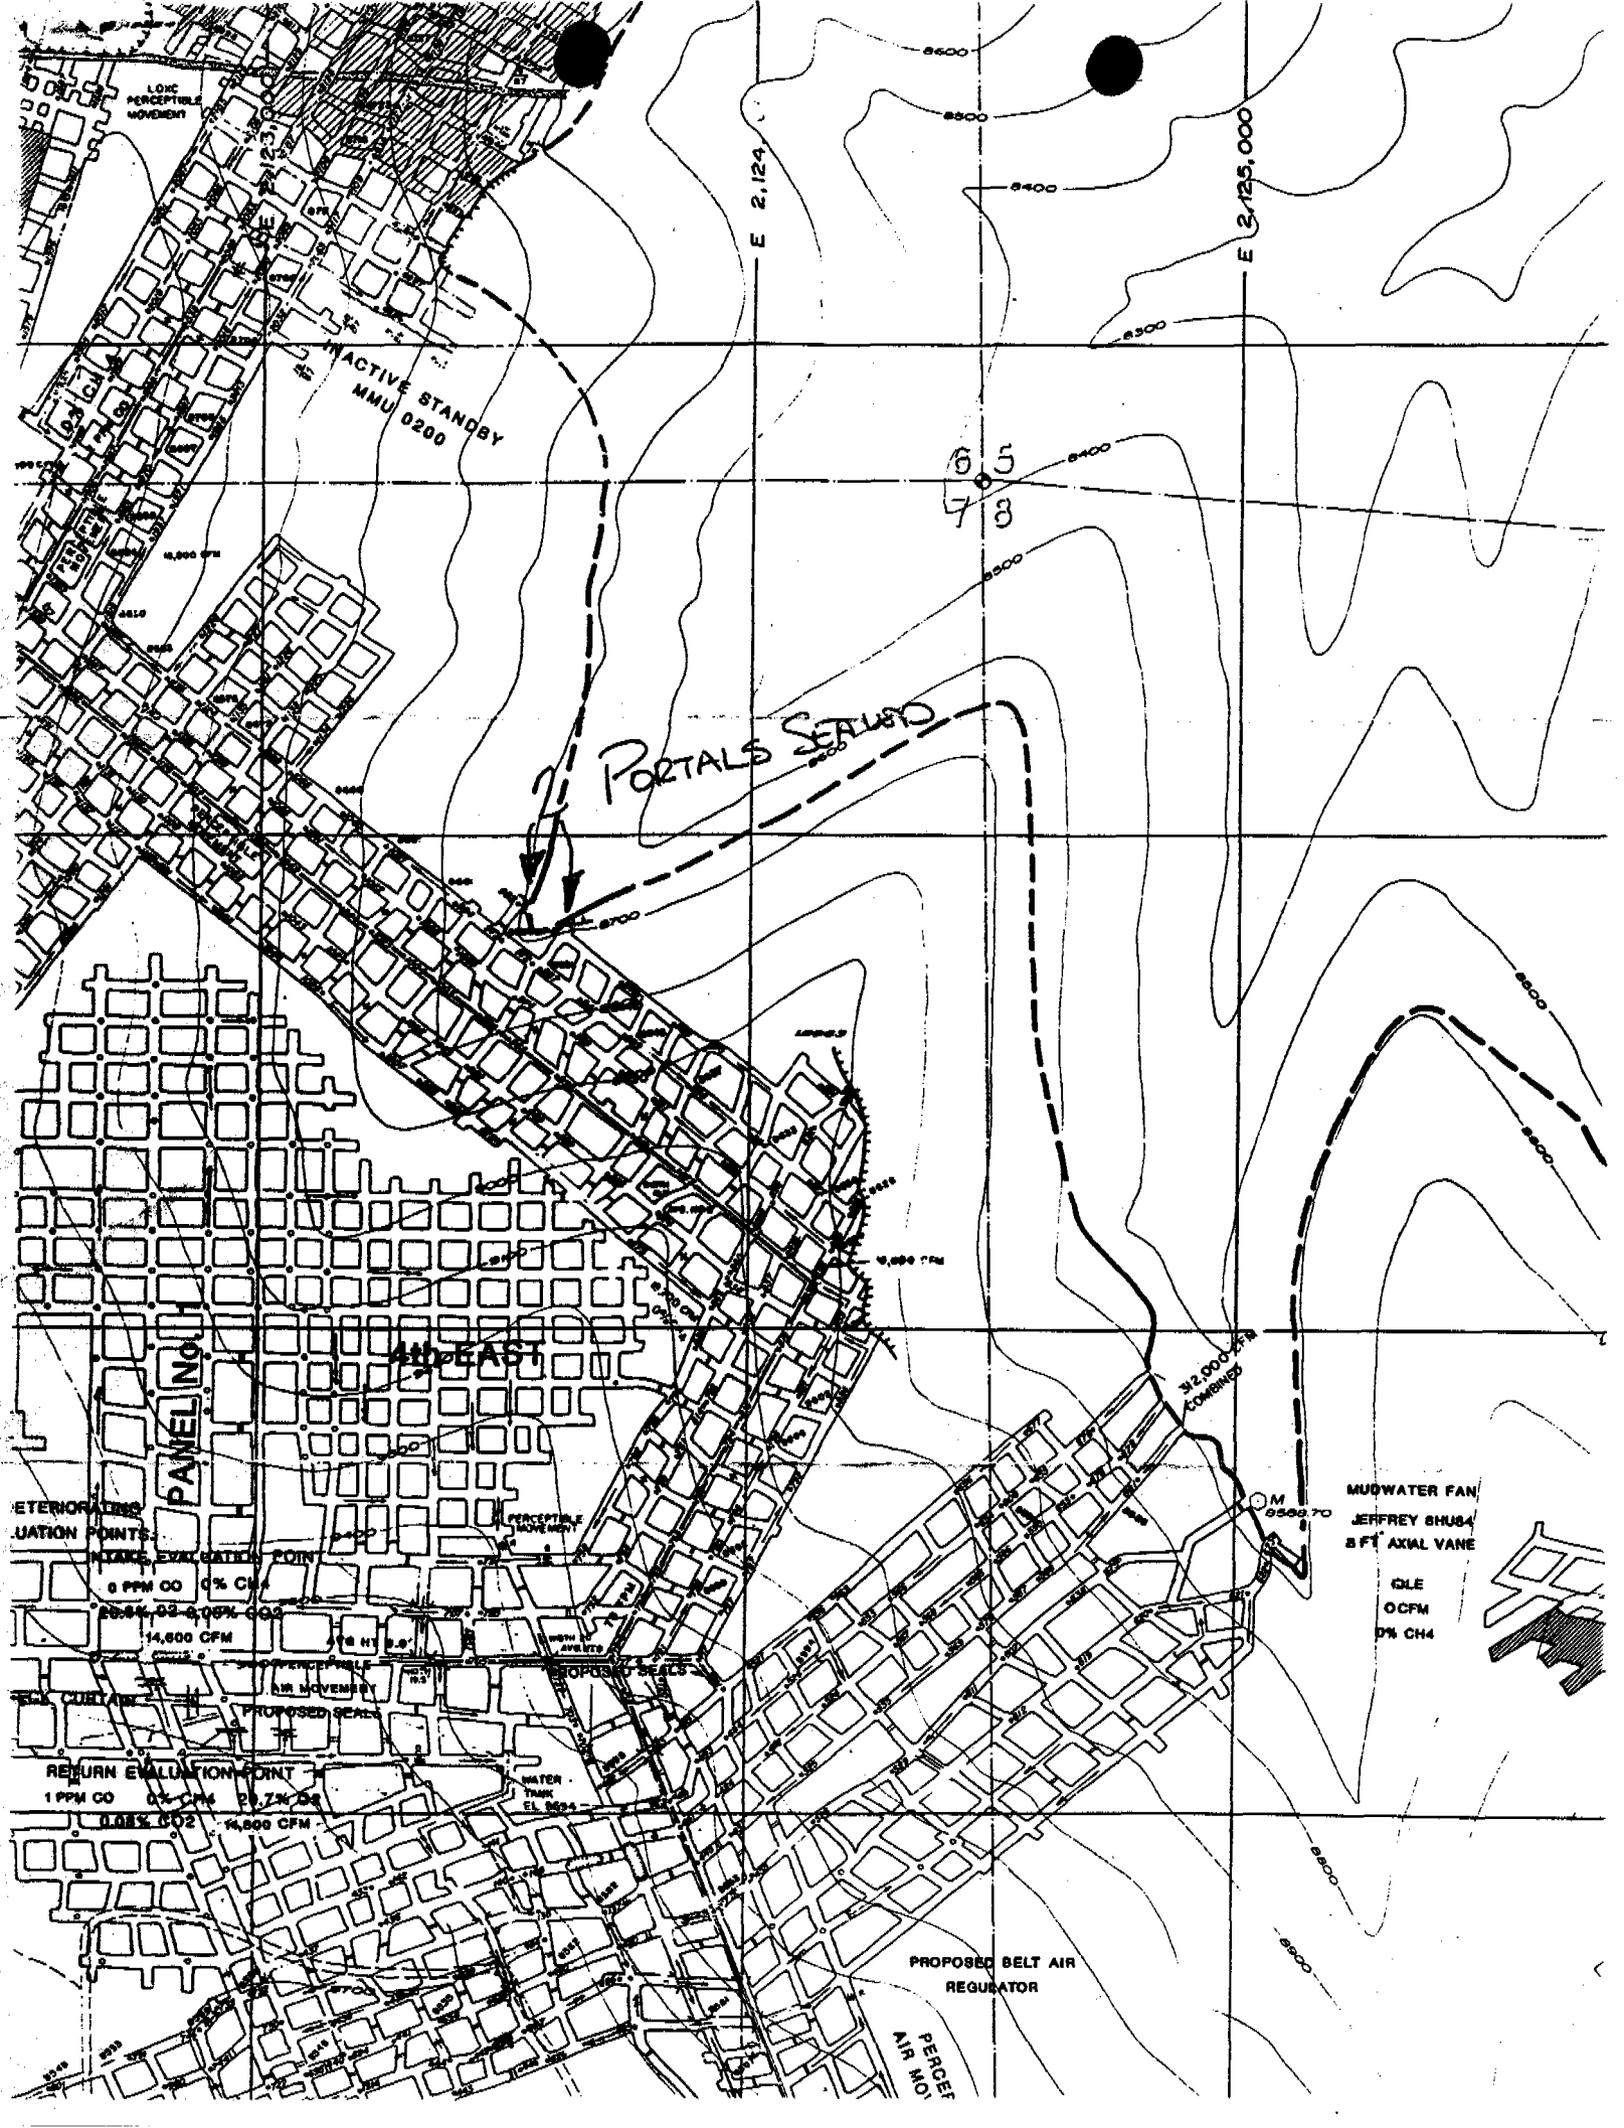

The attached mine map shows the portals highlighted in yellow. The area of the mine to the northwest has been mined out and abandoned. To reduce ventilation problems and to comply with MSHA regulations, the area is being sealed. Access to the in-mine side of the seals is still possible until some time during the week of July 24.

We need to know the procedure for removing the seals from the permit including the reclamation bond, please let me know how to handle this.

Respectfully,

Ben Grimes  
Sr. Environmental Engineer
