 Copy PAM #2*

FEB 17 1994

GAS

Cyprus Plateau Coal Company (CPCC) has proposed to drill seven coal exploration holes west of their current leases on exploration license UTU-69099. Some of these drill holes are proposed to be completed as water-monitoring wells.

This exploration plan was originally submitted in 1991, but the holes were never drilled. We requested CPCC to submit an updated plan and they complied by submitting the enclosed updated plan. Please review this updated plan (two copies enclosed), and provide any recommended conditions of approval to this office.

If you have any questions regarding this matter, contact Tom Rasmussen at the Price River Resource Area (637-4584).

Sincerely,

District Manager
