Cyprus Plateau Mining Corporation

Quarterly Refuse Pile Certification  
4th Quarter, 1993

I hereby certify that I am a registered professional engineer in the State of Utah. I certify that I have made an inspection of the coal processing refuse pile at Cyprus Plateau Mining Corporations' Star Point Mine in Carbon County Utah. The refuse pile has been constructed and maintained as designed. The 1992 certification performed by Rollins, Brown and Gunnel dated December 31, 1992 also certifies the pile to be in conformance with the requirements of design criteria. The 1993 certification field work was performed on December 21, 1993; the report will be available in approximately 2 weeks. There are no apparent areas of instability, structural weakness or other hazardous conditions.
