Re: Minor Exploration Wild Cattle Hollow Tract and Trough Springs
Ridge, Star Point Mine, Cyprus Plateau Mining Co., ACT/007/006,
File Folder #2, Carbon County, Utah

The proposal to drill several exploration holes does not interfere with any water courses or require any stream crossings. Several of the holes may be completed as water monitoring holes and therefore the proposal addresses how these holes would be completed as monitoring holes. It appears that any holes completed as monitoring holes have been adequately covered in terms of generic details in the plan. Therefore, the plan is considered adequate for water monitoring purposes at this point in time.
