Dear Mr. Braxton,

As I discussed with you yesterday, we have been having problems completing our hydrology database to complete the 1993 hydrology annual report. We need an additional extension of time to submit the report. We will have the report to you by June 20, 1994.

Our consultant has been in my office for two weeks working on the database setup, and now it is in a usable form. The database still has some bugs to be worked out, however, as soon as I get enough training in its use, we will be able to provide to the Division our data in digital form.

Thank you for your patience in this matter.

Respectfully,
