FINDINGS

Cyprus Plateau Mining Corporation
Star Point Mine
Castle Valley Ridge Federal Lease UTU-64263
ACT/007/006 #3
Carbon County, Utah

January 6, 1995

1. The revised plan and the permit application are accurate and complete and all requirements of the Surface Mining Control and Reclamation Act, and the approved Utah State Program (the "Act") have been complied with (R645-300-133.100). (See TA dated January 6, 1995.)
2. No additional surface reclamation is required since the additional permit area will be mined as an underground extension of the existing mine. There will be no new surface facilities (R645-300-133.710).
3. An assessment of the probable cumulative impacts of all anticipated coal mining and reclamation activities in the general area on the hydrologic balance has been conducted by the Division and no significant impacts were identified. The Mining and Reclamation Plan (MRP) proposed under the application has been designed to prevent damage to the hydrologic balance in the permit area and in associated off-site areas (R645-300-133.400 and UCA 40-10-11 {2}{c}). (See Gentry Mountain CHIA, updated 1994.)
4. The proposed lands to be included within the permit area are:
 - a. Not included within an area designated unsuitable for underground coal mining operations (R645-300-133.220);
 - b. not within an area under study for designated lands unsuitable for underground coal mining operations (R645-300-133.210);
 - c. not on any lands subject to the prohibitions or limitations of 30 CFR 761.11 {a} (national parks, etc.), 761.11 {f} (public buildings, etc.) and 761.11 {g} (cemeteries);
 - d. not within 100 feet of the outside right-of-way of a public road (R645-300-133.220); and
 - e. not within 300 feet of any occupied dwelling (R645-300-133.220).

FINDINGS

Cyprus Plateau Mining Corporation
Star Point Mine
Castle Valley Ridge Federal Lease UTU-64263
ACT/007/006 #3
Carbon County, Utah

January 6, 1995

1. The revised plan and the permit application are accurate and complete and all requirements of the Surface Mining Control and Reclamation Act, and the approved Utah State Program (the "Act") have been complied with (R645-300-133.100). (See TA dated January 6, 1995.)
2. No additional surface reclamation is required since the additional permit area will be mined as an underground extension of the existing mine. There will be no new surface facilities (R645-300-133.710).
3. An assessment of the probable cumulative impacts of all anticipated coal mining and reclamation activities in the general area on the hydrologic balance has been conducted by the Division and no significant impacts were identified. The Mining and Reclamation Plan (MRP) proposed under the application has been designed to prevent damage to the hydrologic balance in the permit area and in associated off-site areas (R645-300-133.400 and UCA 40-10-11 {2}{c}). (See Gentry Mountain CHIA, updated 1994.)
4. The proposed lands to be included within the permit area are:
 - a. Not included within an area designated unsuitable for underground coal mining operations (R645-300-133.220);
 - b. not within an area under study for designated lands unsuitable for underground coal mining operations (R645-300-133.210);
 - c. not on any lands subject to the prohibitions or limitations of 30 CFR 761.11 {a} (national parks, etc.), 761.11 {f} (public buildings, etc.) and 761.11 {g} (cemeteries);
 - d. not within 100 feet of the outside right-of-way of a public road (R645-300-133.220); and
 - e. not within 300 feet of any occupied dwelling (R645-300-133-220).
5. The Division's issuance of a permit is in compliance with the National Historic Preservation Act and implementing regulations (36 CFR 800 and R645-300-133.600). (See attached letter from State Historic Preservation Officer (SHPO) dated January 27, 1994.)

6. The applicant has the legal right to enter and complete mining activities in Lease UTU-64263 issued by the Bureau of Land Management. See letter from BLM dated September 19, 1991. (R645-300-133.300).
7. A 510(c) report has been run on the Applicant Violator System (AVS), which shows that: prior violations of applicable laws and regulations have been corrected; neither Cyprus Plateau Mining Corporation or any affiliated company, are delinquent in payment of fees for the Abandoned Mine Reclamation Fund; and the applicant does not control and has not controlled mining operations with demonstrated pattern of willful violations of the Act of such nature, duration, and with such resulting irreparable damage to the environment as to indicate an intent not to comply with the provisions of the Act (see memo from Pamela Grubaugh-Littig dated January 6, 1995) (R645-300-133.730).
8. Underground mining operations to be performed under the permit will not be inconsistent with other operations anticipated to be performed in areas adjacent to the proposed permit area.
9. The applicant has posted a reclamation performance bond in the amount of \$5,180,000 made payable to the Division and the Office of Surface Mining, Reclamation and Enforcement (OSM).
10. No lands designated as prime farmlands or alluvial valley floors occur on the permit area (R645-302-313.100 and R645-302-321.100).
11. The proposed postmining land-use of the permit area is the same as the pre-mining land use and has been approved by the Division and the surface land management agency, the United States Forest Service.
12. The Division has made all specific approvals required by the Act, the Cooperative Agreement, and the Federal Lands Program.
13. The proposed operation will not affect the continued existence of any threatened or endangered species or result in the destruction or adverse modification of their critical habitats (R645-300-133.500). (See letter from U. S. Fish and Wildlife Service dated February 1, 1994.)

14. All procedures for public participation required by the Act, and the approved Utah State Program have been complied with (R645-300-120).
15. No existing structures will be used in conjunction with mining of the underground right-of-way, other than those constructed in compliance with the performance standards of R645-301 and R645-302 (R645-300-133.720).
