RE: Cyprus Plateau Mining Company
Summary of Major 1996 Permit Revisions

Dear Darron:

As requested we have completed a redline/strikeout review and comparison of changes which were made to the 1996 permit renewal for Cyprus Plateau Mining Company (CPMC). The updated files were compared directly to the computer files that CPMC delivered to us at the start of the renewal project. It is our understanding that the files used in the comparison are the most recent files available, and that they contain all modifications which have been submitted and approved by the Division.

Minor changes in the permit including such items as new page numbers, misspelled words, line spacing additions or deletions, paragraph splits, changed appendix numbers, change in "tense", etc. have not been specifically noted on attached form C2. Such a list would be difficult to provide. Only those changes which "add to", "change", or "delete from" the intent, content or meaning of the permit are specifically identified herein.

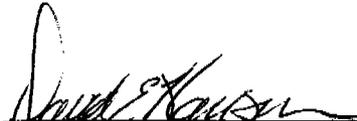

We have also taken an additional step wherein we have reviewed the permit on file at the DOGM library with the enclosed form C2, and made appropriate page number corrections. This step was completed in an attempt to eliminate as many errors as possible from this submittal. In our redline review it was also noted that some minor changes needed to be made in the permit submitted. Specifically the following pages need to be replaced as noted below, and as identified on Form C2.

- Replace Figure 112a with enclosed Figure 112.340a. The number was found to be in error. No organizational changes have been made since the submittal in September.
- Replace pages 100-5 and 100-6. The refuse pile MSHA numbers have been added as discussed earlier by phone.
- Replace pages 300-25 and 300-26. The numbers shown in the last row of Table 321.100j were calculated by the computer erroneously. They have been corrected.

Mr. Darron Haddock
October 14, 1996
Page 2 of 2

Seven copies of the corrected pages are included herein for your use. Please call should you have any questions regarding this submittal, or should you require additional information.

Sincerely,

David E. Hansen, Ph.D., P.E.

cc: Johnny Pappas - CPMC

Application for Permit Change Detailed Schedule of Changes to the Permit

Title of Change:

1996 PERMIT RENEWAL - SUMMARY OF MAJOR CHANGES

Page 1 of 4

Permit Number: ACT / 007 / 006

Mine: STAR POINT MINES

Permittee: Cyprus Plateau Mining

Provide a detailed listing of all changes to the mining and reclamation plan which will be required as a result of this proposed permit change. Individually list all maps and drawings which are to be added, replaced, or removed from the plan. Include changes of the table of contents, section of the plan, pages, or other information as needed to specifically locate, identify and revise the exiting mining and reclamation plan. Include page, section and drawing numbers as part of the description.

DESCRIPTION OF MAP, TEXT, OR MATERIALS TO BE CHANGED
