RE: In-Mine Ground Water Monitoring Modification, Cyprus Plateau Mining Corporation, Starpoint Mine, ACT/007/006-97C, Folder #2, Carbon County, Utah

The attached permit amendment concerns in-mine water monitoring at the Starpoint Mine.

This amendment primarily involves hydrologic matters. With the anticipated closure of the mine and followed by reclamation, it appears that such an amendment proposal, at this time, is appropriate. The amendment proposes discontinuing in-mine water monitoring.

In light of the above information, the amendment is being forwarded to your office. We have retained a copy of the amendment to accomodate the review by State Agencies.
