Re: UPDES REPORT, SEPTEMBER 2001 - PERMIT NO. UT0023736

Dear Mr. Smith

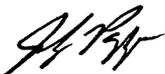

Enclosed please find our Discharge Monitoring Reports for September 2001.

With the closure of the Star Point Mine, sealing of all portals, and decommissioning of all surface facilities, outfalls 001 (Mudwater Fan) and 011 (Water Storage Reservoir) no longer have the potential to discharge.

During this month, outfall 003 (Pond 3) and outfall 008 (Pond 8) were decommissioned during the reclamation of the areas reporting to the ponds. As reclamation of the Star Point Mine continues, in accordance with its SMCRA Permit, other outfalls will be decommissioned in a systematic approach. Plateau Mining Corporation (PMC) will maintain existing outfalls in compliance with its UPDES Permit.

If you have any questions, please do not hesitate to contact me and (435) 472-4741.

Sincerely,

Johnny Pappas
Sr. Environmental Engineer
