Subject: Star Point Mine Reclamation Permit by Rule Approval - Industrial Solid Waste Landfill, Carbon County

Dear Mr. Pappas:

The application for a Permit by Rule for the disposal of solid waste as part of the reclamation of Plateau Mining Corporation's Star Point Mine in Carbon County has been reviewed.

It is determined that the waste disposed at the solid waste disposal site will be nonhazardous industrial waste and that the closure and reclamation activities at the site will be as stringent as the requirements for an Industrial Solid Waste Landfill specified in Utah Administrative Code (UAC) R315-304-5(2)(b). Also, the reclamation bond required by the Division of Oil, Gas, and Mining includes the closure and reclamation of the solid waste disposal site.

Therefore, the solid waste disposal site at the Star Point Mine meets the requirements of UAC R315-318 and is hereby permitted by rule under the condition that the requirements of UAC R315-302-2(6) are met. This requirement specifies that the owner or operator of a solid waste disposal facility shall, within 60 days of closure, make a change in the record of title that the property has been used as a solid waste disposal site and submit proof of the record of title filing to the Executive Secretary.

If you have questions or need further information on this matter, please contact Ralph Bohn or Carl Wadsworth at 801-538-6170.

Sincerely,
Dennis R. Downs
Dennis R. Downs, Executive Secretary
Utah Solid and Hazardous Waste Control Board
