Dear Mr. Hawkes:

Discharge Monitoring Reports are enclosed for the month of December. Reclamation activities at the Star Point Mine have progressed down the canyon whereby outfalls 002, 004, 007, and 009 have been removed.

With the final reclamation of the areas reporting to these outfalls and subsequent to the Division's November 27, 2002 letter deleting outfalls 005, 006, and 010, Plateau Mining Corporation (PMC) does not have any outfalls to monitor as prescribed by UPDES permit No. UT0023736. However, PMC will continue to submit monthly DMR forms for outfalls 002, 004, 007, and 009 until the UPDES permit is terminated.

If you have any questions, please do not hesitate to contact me and (435) 472-4741.

Sincerely,

Johnny Pappas  
Sr. Environmental Engineer
