Subject: Star Point Phase I bond release inspection

I sent letters several week ago about this and I'm checking back now to see who will be attending from the FS and BLM. The inspection wil be two days. On Wednesday, 6/23, there will be a hike to the breakouts that have been reclaimed. Thursday's inspection will be around the reclaimed mine site. Both days will involve hiking.

You meet at the turnoff from Highway 10 to Highway 122 (the turnoff to Hiawatha) at 9:00 on both days.

I understand that Mike Smith from the FS will attend the inspection on Wednesday. Mitch Rollings from OSM will attend both days.

The FS and BLM will need to send letters to the Division about the bond release inspection and whether or not they agree to the bond release. This should be done within 30 days from the inspection (i.e. by July 23, 2004).

If you have any questions, please let me know. Thank you. Pam

Re: Invitation to Attend Phase I Bond Release Inspection, Plateau Mining Corporation, Star Point Mine, Permit C/007/0006, Task ID #1910, Outgoing File

Dear Mr. Faddies:

You are invited to attend the Phase I bond release inspection for the Star Point Mine. Plateau Mining Corporation is seeking Phase I bond release on the reclaimed areas including, Lion Deck, main mine facilities, unit train loadout, associated roads, ponds and facilities, the reconstructed channel of Serviceberry Creek, Mudwater Canyon portal area and the Corner Canyon portal area.

This inspection will be on Wednesday, June 23, 2004 and Thursday, June 24, 2004 starting at 9:00 a.m. each day. Please meet at the intersection of Highway 10 and Highway 122 (Hiawatha/Wattis turnoff). A four-wheel drive vehicle with good ground clearance and off road tires is recommended.

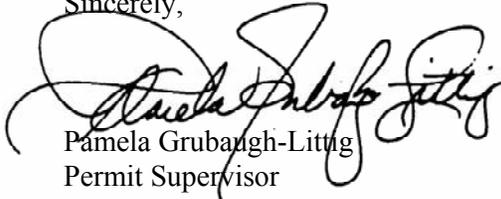

On June 23, 2004, the inspection will be at Mudwater Canyon (1.1 acres) and Corner Canyon (0.44 acres.) The only access to those sites is by hiking. There are no established trails to either site and hiking will be on steep rough terrain. The change in elevation for each hike is approximately 1,200 feet and the round trip distance is about 2 miles. Please bring water, lunch, snacks, sunscreen, hat, insect repellent, backpack, hiking boots, walking stick, and a rain jacket.

On June 24, 2004, the inspection will include the Lion Deck area, main mine facilities, unit train loadout, associated roads, ponds and facilities, and the reconstructed channel of Serviceberry Creek. While all areas are accessible by vehicle, the inspection will include moderate hikes on rough steep terrain.
