**GENERAL INFORMATION**

Permitte Name	Plateau Mining Corporation
Mine Name	Star Point Mine
Operator Name (If other then permittee)	
Permit Expiration Date	January 28, 2012
Permit Number	C/007/0006
Authorized Representative Title	Dennis N. Ware, Controller and Administrative Manager
Phone Number	(435) 472-4737
Fax Number	(435) 472-4782
E-mail Address	dware@foundationcoal.com
Mailing Address	P.O. Box 30, Helper, UT 84526
Designated Representative	Dennis N. Ware
Resident Agent	C.T. Corporation
Resident Agent Mailing Address	50 West Broadway, Salt Lake City, UT 84101
Number of Binders Submitted	Two

**IDENTIFICATION OF OTHER PERMITS**

Identify other permits that are required in conjunction with mining and reclamation activities.

Permit Type	ID Number	Description	Expiration Date
MSHA Mine ID(s)	42-00170	Legal Identity	
MSHA Impoundment(s)			
NPDES/UPDES Permit(s)	UT0023736	UPDES	Inactivated 11/18/04
PSD Permit(s) (Air)	DAQE-886-96	Approval Order

	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>		

**COMMITMENTS AND CONDITIONS**

The Permittee is responsible for ensuring annual technical commitments in the MRP and conditions accepted with the permit are completed throughout the year.

**REPORTING OF OTHER TECHNICAL DATA**

List other technical data and information as required under the approved plan, which must be periodically submitted to the Division. Specify whether the information is included as Appendix B to this report or currently on file with the Division

**Water Monitoring each Quarter which is on file with the Division.**

\*Reminder: If equipment has been abandoned during 2007, an amendment must be submitted that includes a map showing its location, a description of what was abandoned, whether there were any hazardous or toxic materials and any revision to the PHC as necessary.

**LEGAL, FINANCIAL, COMPLIANCE AND RELATED INFORMATION**

Change in administration or corporate structure can often bring about necessary changes to information found in the mining and reclamation plan. The Division is Requesting that each permittee review and update the legal, financial, compliance and related information in the plan as part of the annual report. Please provide the Department of Commerce, Annual Report of Officers, or other equivalent information as necessary to ensure that the information provided in the plan is current. Provide any other change as necessary regarding land ownership, lease acquisitions, legal results from appeals of violations, or other changes as necessary to update information required in the mining and reclamation plan. Include certified financial statements, audits or worksheets, which may be required to meet bonding requirements. Specify whether the information is currently on file with the Division or included as Appendix C to the report.

**CONTENTS**  
**OVERVIEW OF RECLAMATION AND PHASED BOND RELEASE ACTIVITIES**

**STAR POINT MINE**  
**Permit Number C/007/0006**

The Star Point Mine is located on Gentry Mountain approximately 23 miles southwest of Price, Utah on the east side of the Wasatch Plateau Coal Field. The Star Point Mine permit area is 8820.86 acres (Map 112.500a) of which 93.77 acres (Maps 542.200a, 542.200b, and 542.200c) are within the disturbed (bonded) area boundary. Phase I bond release for the 93.77 acres was approved on October 12, 2004. A performance bond in the amount of \$3,118,400 is held to ensure that reclamation is accomplished. The Permit expires on January 28, 2012.

Mining operations began in 1916 when the Wattis Brothers and Mr. Browning bought 160 acres from the United States and developed the property for coal production. The Lion Coal Company operated Wattis No.1 and 2 mines until the end of 1963. There were no coal mining activities from 1964 through 1967. Plateau Mining, Ltd. operated the Star Point No.1 mine in the Hiawatha Coal Seam, and the Star Point No.2 Mine in the Wattis Coal Seam, from 1967 through the fall of 1971. United Nuclear Corporation acquired the Star Point Mines in the fall of 1971. Modernization of the coal mine started when the Lion Deck portal area was expanded in October 1977. United Nuclear Corporation operated the mine until July 1980. The current Permittee, Plateau Mining Corporation (PMC) a subsidiary of Foundation American Coal Company, LLC, operated the Star Point Mine from July of 1980 until its closure in February of 2000.

Following the permanent cessation of operations in 2000, PMC began reclamation activities. Reclamation in 2000 dealt with: the demolition of the overland conveyor system and preparation plant; the removal of equipment and machinery from underground; the demolition, backfilling and grading, and reseeding of the Comer Canyon and Mudwater Canyon Fan sites; and the sealing of the portals at the Lion Deck. As a footnote to the backfilling and grading activities at the remote fan sites, PMC earned a 2001 Earth Day Award for outstanding results following applications of innovative environmental technology for backfilling remote locations from within the mine (outside-in).

Reclamation activities continued in 2001 with further demolition, backfilling and grading, and reseeding activities on approximately 45.0 acres, which include the following: 1) No. 1 Mine Area encompassing 35.0 acres; and 2) Unit Train Loadout and Silo area encompassing 10.0 acres.

During 2002, demolition, backfilling and grading, and revegetation operations were performed on approximately 49.0 acres. The reclaimed acres are as follows: 1) 25.5 acres associated with the Lions Deck and Pond 1 Areas; and 2) 23.5 acres associated with the Overland Conveyor and Main Channel Areas. During this year, PMC demonstrated that mining did not impact the hydrologic balance and through the permit amendment process received approval from DOGM to discontinue further water monitoring, on all

but three locations. Two of the three remaining locations deal with the North Fork of the Right Fork of Miller Creek and the other is to monitor for off site contributions of sediment below the reclaimed lands.

In 2003, reclamation related activities were completed with the abandonment of water monitoring wells, boreholes, and minor backfilling and/or fencing of subsidence cracks. During 2003, PMC demonstrated that subsidence has substantially ceased and through the permit amendment process received approval from DOGM to discontinue further subsidence monitoring. Also in 2003, an amendment to discontinue color infrared vegetation monitoring was approved by the Forest Service and DOGM.

In 2004 DOGM conducted a midterm permit review for the Star Point Mine. Also in 2004, phase I bond release for the Star Point Mine was achieved. On November 18, 2004 the UPDES permit (No. UT0023736) for the Star Point Mine was inactivated.

In 2005 PMC reached an agreement with the Huntington Cattle Association resolving the long standing Citizens Complaint on the Star Point Spring.

Also in 2005 the culverts that were located in the north fork of the right fork of Miller Creek were removed and hauled off the mountain.

In 2006 the year-four vegetation monitoring was completed.

In 2007 the Permittee submitted and received approval from the Division for a subsidence repair plan for the Castle Valley Ridge area of Gentry Mountain (see Exhibit 525.100c in Volume 3 of the Star Point MRP). The repairs were completed and the area was seeded on August 14, of 2007.

All demolition, backfilling and grading, and revegetation activities have been completed at the Star Point Mine with the monitoring and phase II and III bond release processes remaining.
